

SealMaster® Coal Tar Sealer

SealMaster® Coal Tar

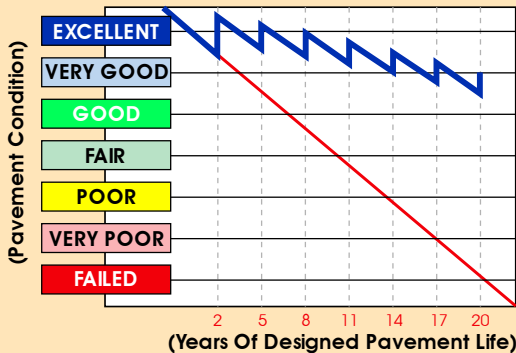

SealMaster® Coal Tar Sealer

The Standard By Which All Other
Coal Tar Sealers Are Judged.

**A Pavement Maintenance Program
That Includes Periodic Sealcoating And
Crack Filling Will More Than Double The
Service Life Of Asphalt Pavement.**

- Scheduled Pavement Maintenance Program Curve
 - Pavement Deterioration Curve - No Scheduled Maintenance

For over 30 years, SealMaster has maintained its position as a leading producer of coal tar emulsion pavement sealer. Millions and millions of gallons of SealMaster coal tar sealer have been successfully applied to commercial parking lots, driveways, shopping malls, industrial parking lots, airports, roadways, and various other pavement surfaces throughout the world. SealMaster's unique manufacturing process, strict quality control, and unmatched performance standards have made SealMaster coal tar sealer the number one choice among pavement professionals.

**SealMaster Coal Tar Pavement Sealer
Exhibits Outstanding Fuel Resistance.**

Superior Protection

PROTECTION FROM OXIDATION

PROTECTION FROM MOISTURE

PROTECTION FROM CHEMICALS

Sealed vs. Unsealed...

Problem: Left untreated, asphalt pavement will deteriorate rapidly. The asphalt binder that holds the pavement together begins to oxidize and weather soon after installation. Moisture penetrates the asphalt causing further damage and deterioration to the pavement.

Solution: SealMaster Coal Tar Sealer replenishes the binder that is lost through weathering and aging, and provides superior protection against environmental distress.

SealMaster restores the original black color to asphalt and greatly enhances the overall appearance of your property.

Professional Service...

SealMaster pavement sealers are applied by our nationwide and world-wide network of qualified pavement maintenance professionals to assure optimum product performance and customer satisfaction.

Meeting And Exceeding Industry Standards- SealMaster® Coal Tar Emulsion Pavement Sealer meets and exceeds industry standards including ASTM D5727, RP 355e, ASTM D-3320-74T, U.S. Air Force specifications and F.A.A. P627, P628, P630 and P631 specifications for coal tar pitch emulsion (CTPE) pavement sealer.

Sealed vs. Unsealed
