Acrylic Pavement SEALER

THE ULTIMATE CHOICE FOR PAVEMENT MAINTENANCE

ADVANTAGES:

DISCOVER THE ACRYLIC ADVANTAGE...
 A 100% Acrylic formulation that outlasts and outperforms ordinary pavement sealers. Provides superior protection against weather, salt, gasoline and chemicals. Remains jet black for years. Resists scuffing and marking. SealMaster Acrylic Pavement Sealer is ideal for protecting all types of asphalt pavement surfaces including parking lots, driveways, shopping malls, airports and more.

ACRYLIC PAVEMENT SEALER PROTECTS AGAINST:

CHEMICALS

MOISTURE

OXIDATION

DOUBLES THE LIFE OF PAVEMENT...

A pavement maintenance program that includes periodic sealcoating and crack filling will more than double the service life of asphalt pavement.

- A** Acrylic Pavement Sealer restores the original black color to asphalt and greatly enhances the overall appearance of your pavement surface. It provides a deep rich "like new" black appearance.
- B** **SEALED VS. UNSEALED...**
Problem: Left untreated, asphalt pavement will deteriorate rapidly. The asphalt binder that holds the pavement together begins to oxidize and weather soon after installation. Moisture penetrates the asphalt causing further damage and deterioration to the pavement.
Solution: Acrylic Pavement Sealer replenishes the binder that is lost through weathering and aging, and provides superior protection against environmental distress.
- C** 100% acrylic polymers provide unsurpassed strength, adhesion, flexibility, fuel resistance and UV resistance.
- D** Because of its acrylic formulation, it resists scuffing and won't carry into the house on shoes and toys. Outdoor play is cleaner and more enjoyable, and inside, floors stay clean.
- E** A safer pavement sealer for pedestrian and vehicle traffic... Acrylic Pavement Sealer's high level of aggregate loading produces a surface coating with skid resistance in both wet and dry conditions. Acrylic Pavement Sealer provides property owners with a safer pavement for both motorists and pedestrians.

■ Scheduled Sealcoating ■ No Scheduled Sealcoating

ACRYLIC PAVEMENT SEALER USES...

- Parking Lots
- Driveways
- Airports
- Shopping Malls
- And More

MAINTAINING THE WORLD'S PAVEMENT

A TRADITION OF QUALITY & INNOVATION...

For over 50 years, property owners and government agencies have turned to SealMaster for innovative, cost-effective pavement maintenance solutions. SealMaster products are designed to repair, protect and beautify pavement, greatly enhancing your property's curb appeal. SealMaster continues to be an industry innovator with over one billion gallons of pavement sealer applied world-wide.

PROFESSIONAL SERVICE...

SealMaster has the industry's largest network of professionally trained pavement maintenance contractors to assure successful results at competitive prices. Our network of highly trained and experienced professionals are available to provide on-site project recommendations as well as full application services to assure quality results on every project.

A GLOBAL LEADER...

With over 100 Manufacturing and Distribution centers coast to coast along with manufacturing and product distribution in over 50 countries, SealMaster continues to be a global leader in pavement maintenance. SealMaster's unparalleled record of technological advances in both product and application equipment continues to set us apart as a true industry leader.
